

Statement of Intent

Roskerry Building Services Ltd will pursue a policy aimed at minimising environmental damage and maximising opportunities for continual environmental improvement. This supports our commitment to achieving ISO 14001 certification.

In all of our activities we shall consider environmental impact at the planning stage. We shall prevent pollution, conservation of energy and natural resources and the preservation and enhancement of natural habitats.

To implement this policy the company will ensure its site management and supervisors are aware of the environmental implications of activities within their own areas of responsibility, where necessary additional training may be required to heighten awareness of the relevant issues.

On individual contracts, we shall endeavour to obtain the best advice from our clients concerning environmental aspects of the contract.

During the execution of our works we will manage and organise the works in a manner which will reduce, so far as is reasonably practicable, environmental damage caused by:

- Noise
- Dust
- Effluent / paint waste arising from the works
- Storage and use of paints, thinners etc.

In simple terms we aim to **Reduce** waste, **Re-use** materials where possible and **Recycle**. In many cases we will offer alternatives to Client specifications if we feel the 3R's are not being fully utilised. We will also take effective precautions to protect adjacent land, buildings and the general public from any danger, discomfort or nuisance.

In pursuance of this policy, environmental considerations will be taken into account in the selection of materials, which be from wherever reasonably practicable sustainable sources. All waste material will be disposed of appropriately, all waste removal or transfer will be by licensed haulier to properly managed and licensed tips. Copies of the relevant certification will be obtained for each contract.

All members of the company's management and supervisors will be made aware of this policy and its contents. The company management take full responsibility to ensure the EMS meets the requirements of all legal obligations.

SIGNED:

DATED: 14/01/2025

Dan Leahy (Director)
